

## FIRST ANNOUNCEMENT

**Tuchola Landscape Park, Zaborski Landscape Park and Nicolaus Copernicus University in Toruń in cooperation with the Marshal's Office of the Kujawy-Pomerania Province and Pomerania Province organise and sincerely invite you to participate in:**

**Jubilee Conference to celebrate the:**

**35th Anniversary of  
TUCHOLA LANDSCAPE PARK**

**30th Anniversary of  
ZABORSKI LANDSCAPE PARK**

**10th Anniversary of  
TUCHOLA FOREST BIOSPHERE RESERVE**

**under the title**

***The role of landscape parks in Biosphere Reserves***

**Tuchola Landscape Park, 5–6 November 2020**

**The Tuchola Forest Biosphere Reserve (TFBR)** was created in June 2010 as the largest protected site of this type in Poland. The area of the Tuchola Forest Biosphere Reserve includes the “Bory Tucholskie” National Park, four landscape parks, numerous nature reserves, as well as other areas with a total area of almost 320,000 ha. The created Landscape Parks – **Tuchola LP** (1985) with headquarters in Tuchola and **Zaborski LP** (1990) with headquarters in Charzykowy – constitute a buffer zone for TFBR and are a perfect example of using the potential arising from their establishment and are a precursor of many information, promotion and implementation activities.

**The main objective of this triple jubilee conference** is to present the experience and discuss on the current and expected role of landscape parks in biosphere reserves. The invitation to participate in our conference is addressed to persons responsible for supervision and management of national protected areas at all levels, cooperation between these entities, and to anyone interested in the exchange of good practices in this field.

**REZERWAT BIOSFERY  
BORY TUCHOLSKIE**
